

MOONBUGGY FEATHERWEIGHT AWARD

(Replaces the Most Unique Award)

2013 NASA Marshall Great Moonbuggy Race

Weighing of the Moonbuggies will take place in the folded configuration. For those Moonbuggies which have a total run time (including assembly and penalties) of less than or equal to 10 minutes, the Featherweight Award will be presented to the lightest weight High School and College vehicles. Safety must not be compromised in Moonbuggy design in order to achieve light weight. If a Moonbuggy is judged to be unsafe, it will not be permitted to race.
